Metcalf's approach to anthropology is admirable because it consciously incorporates self-critical aspects I feel are important for anthropology novices to be aware of and understand. Many anthropology texts cover only in passing some of the inherent problems of the field, not giving, in my opinion, the proper impression that anthropology is Anthropology: The Basics by Peter Metcalf

The ultimate guide for the student encountering anthropology for the first time, Anthropology: The Basics explains and explores key anthropological concepts including: what is anthropology? how can we distinguish cultural differences from physical ones? what is culture, anyway? how do anthropologists study culture? what are the key theories and approaches used today?
