So, if all you need is the "gas, sparkplug, wheels" version of how things work in the internet security world, and you have \$20 or so dollars to throw at it, then this is the book for you. However, if you would like to dig a little deeper, save your \$20.00 and look for a more technical book on the subject, as I am off to do. What a big disappointment, and a waste of \$20.
