As demonstrated, research on nonresponse focuses mainly on sample persons socio-demographic characteristics and ignores potential effects of sample persons personality on survey participation decisions. In this third chapter, I explore the benefits of considering personality traits in nonresponse research.

Personality, Attitudes, and Work Behaviors

Understanding the impact of personality traits on individuals turnover decisions: A meta-analytic path model. *Personnel Psychology*, 61 , 309-348. Being high in Neuroticism seems to be harmful to one's career, as these employees have lower levels of career success (measured with income and occupational status achieved in one's career).
