The Psychology of the Language Learner: Individual ...
Dornyei has already opened important doors with his work on motivation, and in this book he goes further, taking us into the whole field of individual differences and identity, fields that are becoming increasingly more important in these days of regional Englishes (World Englishes) and English as a Lingua Franca. Dornyei is at the cutting edge of psycho-linguists and his books are always a

The Psychology of the Language Learner - Google Books

Research results over the past decades have consistently demonstrated that a key reason why many second language learners fail--while some learners do better with less effort--lies in various learner attributes such as personality traits, motivation, or language aptitude. In psychology, these attributes have traditionally been called "individual differences." The scope of individual learner differences is broad--ranging from creativity to learner styles and anxiety--yet there is no current
